

Wetwall

Waterproof Panel System

Wetwall™ is a patented, waterproof, tongue-and-groove bathroom panel system that locks water out without the grout. It's a revolutionary design material that transforms bathrooms quicker, cheaper and easier than shower tile. And inspires all kinds of wows:

Wow... no grout? Wow, it goes right over tile? Wow, it's antimicrobial? Wow, it only costs that much? Wow, it looks like that? Wow, it ships that fast? Wow, still looks amazing, years later?

Waterproof luxury wall panels

Wetwall elevates a bathroom's aesthetic, matches a variety of plumbing finishes and looks more expensive than it is.

Patented Scratch-&-Scuff-Resistant AEON™ Technology

Our wall panels create a seamless finish that stays tough in high-traffic spaces.

One-material-and-done installation

A dimensionally stable core means quick-install wall panels that are easier than tile, more durable than marble and much sturdier than acrylic—no extra materials needed.

Antimicrobial protection

Inhibits the growth of bacteria, mold and mildew, cleans easily and won't wash off.
