

Titus+ System 6 Connectors

The Titus+ System 6 Flush Connector forms a flat surface when inserted into the board to provide an excellent and efficient way to package cabinet systems. The use of the System 6 Flush cam in combination with the Titus Quickfit dowel allows for quick and easy tool-free installation, providing ultimate flexibility on site.

System 6 Features:

- Face boring connector utilizing the 32mm system machining
- The System 6 cam housing is 20mm and features high quality ABS construction with ribbing for optimum holding power when knocked into the panel
- The System 6 is available in both outrigger and non-outrigger configurations
- Versions of the System 6 are available for use in both 16mm and 19mm material
- The System 6 Connector fittings are available for use in both side-entry and drop-on connections
- Drop-on version allows for one person installation
- Depth stop collar allows for accurate installation
- Angle drive feature on the cam guides the screw driver to an angle of 27 degrees, allowing for ease of tightening

System 6 Benefits:

- Easy flat-pack transport
- Less bulky packaging
- Prevents panel damage during transport or during panel storage
- Time savings in production and on the jobsite
