QUARTZ

THE 2023 *THE SELECT COLLECTION*

The Select Collection by Wilsonart® Quartz is a value-priced collection of six particulate and veining designs ideal for large, value-conscious projects, multi-family projects, and even single-family home builders.

Quartz is one of the strongest materials on Earth. From simple maintenance with soap and water to stain and scratch resistance, every design in the Select Collection is durable. Extraordinary. And functional.

NEW 2023

TERLINGUA

Located near the Rio Grande, Terlingua is Texas's most popular ghost town. This surface draws inspiration from the locale, with its off-white, sandy background and warm brown veins that coordinate with a wide range of colors

Q6024

VEINING DESIGN

NEW 2023

SAN ANGELO

Known as the "Oasis of West Texas," San Angelo boasts a rich history and a unique artists' community. Capture the aura of this combination in a Quartz surface that features a slightly sandy background and short brown veins that will delightfully complement any décor.

Q6025

VEINING DESIGN

U R B A N
C L O U D

A medium grey quartz that contains short and slightly faded veins in off-white. The design contains a very fine off-white particulate grain throughout that lends a natural stone appearance and depth to the design.

Q6018

VEINING DESIGN

REFRESH AND INVIGORATE.

The Select Collection by Wilsonart® Quartz provides a thoughtful framework to develop your own narrative—your own personal reprieve—and is equipped to meet a growing demand for a connection to nature, mindfulness, and wellness.

TERLINGUA
Q6024

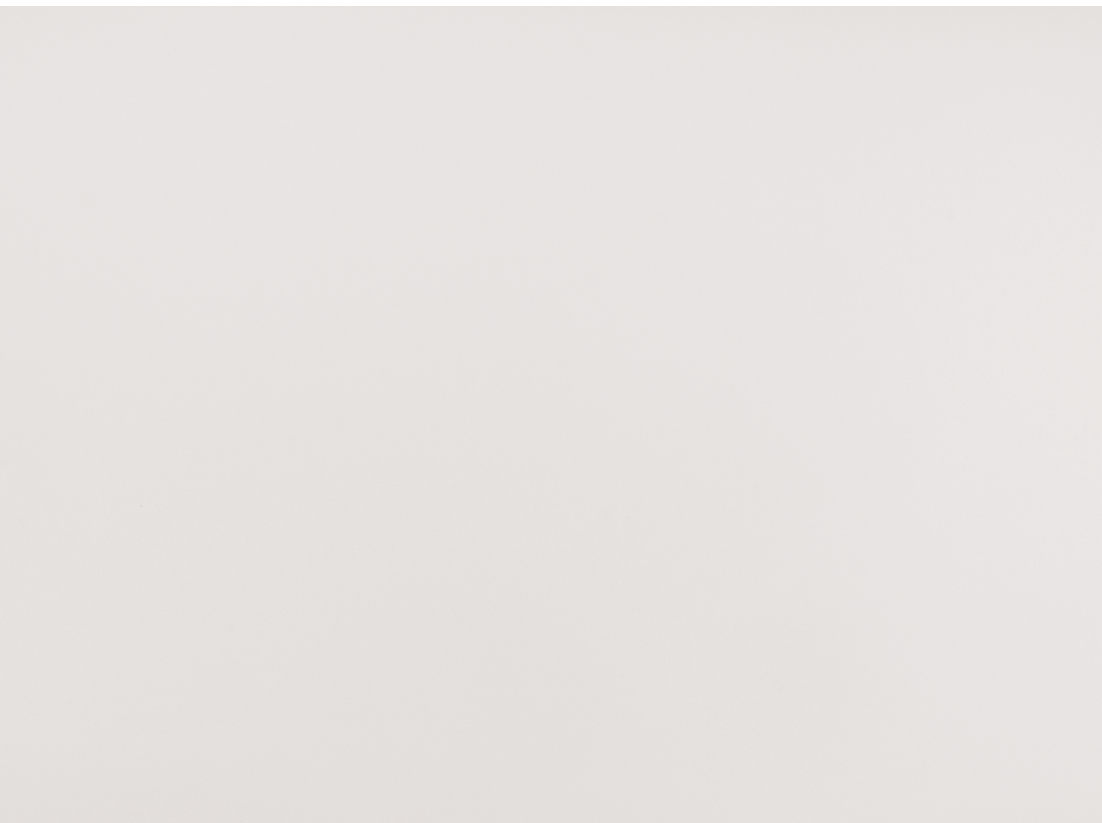

M A R F A

A bright and cool off-white design that contains small particulates that are scattered throughout. These particulates range from transparent to cool grey. Very small, reflective glimmers of silver are also found in the design, in addition to an occasional fleck of warm particulate.

Q6019

PARTICULATE DESIGN

F R O Z E N

A bright, warm white design that contains an ultra-fine grey powder dust. This creates depth and dimension while remaining very clean in appearance.

Q6023

PARTICULATE DESIGN

ABILENE

A slightly warm, soft grey design. Small to medium-size glass particulates are spread throughout the design, ranging in appearance from completely transparent to cool dark grey.

Q6017

PARTICULATE DESIGN

VERSATILE AND RESILIENT.

This elegant and resilient material creates a sense of calm and comfort while standing up to daily use. Inspired by nature and designed to perform, Wilsonart® Quartz is one of the most popular surfacing materials on the market today.
