THINSCAPE[®] Performance Tops

Inspired by the slim silhouette of modern counters, Wilsonart® THINSCAPE® Performance Tops bring European design to the US market for the first time.

THIN IS IN

More durable than porcelain and more affordable than natural stone, THINSCAPE® Performance Tops are luxury for less. The ½" profile creates a minimal look with clean lines and subtle seams, making it the perfect complement for today's thinner cabinet profiles.

DESIGNED FOR DURABILITY

Resistant to moisture, stains and scratches, THINSCAPE® Performance Tops hold up to heavy use in kitchens, baths, and laundry rooms. Maintenance is easy, and no long-term upkeep is required. Just wipe down daily with soap and water.

STATEMENT SURFACES

Designed to resemble surfaces like Carrara marble, distressed pine or raw steel, the potential applications of THINSCAPE® Performance Tops are endless. Install it with an undermount sink or route it into custom shapes for shelves or tables — its strength prevents it from cracking, bending or bowing.

Simply cut and sand with stationary, hand and power tools.

A MULTI-PURPOSE MATERIAL

THINSCAPE® Performance Tops have benefits beyond aesthetics. Easy to cut and install with dry woodworking tools, they're well suited to contemporary floating or integrated countertop styles, cutout sinks, cooktops and more. Sleek, elegant, and room-defining.

Sustainability is reshaping the landscape of design. We're investing in eco-friendly materials manufactured in the USA for a better future.

ECO-FRIENDLY & SIMPLE TO SOURCE

Manufactured in the USA, THINSCAPE® Performance Tops are an engineered composite that are GREENGUARD Gold certified for indoor air quality. US manufacturing makes it readily available without tariffs or other supply-chain snags.

DISTRESSED PINE TS101

TAJ MAHAL TS311

Quartzite fractures and infinite depth join to form an elegant Taj Mahal stone design in calming neutral.

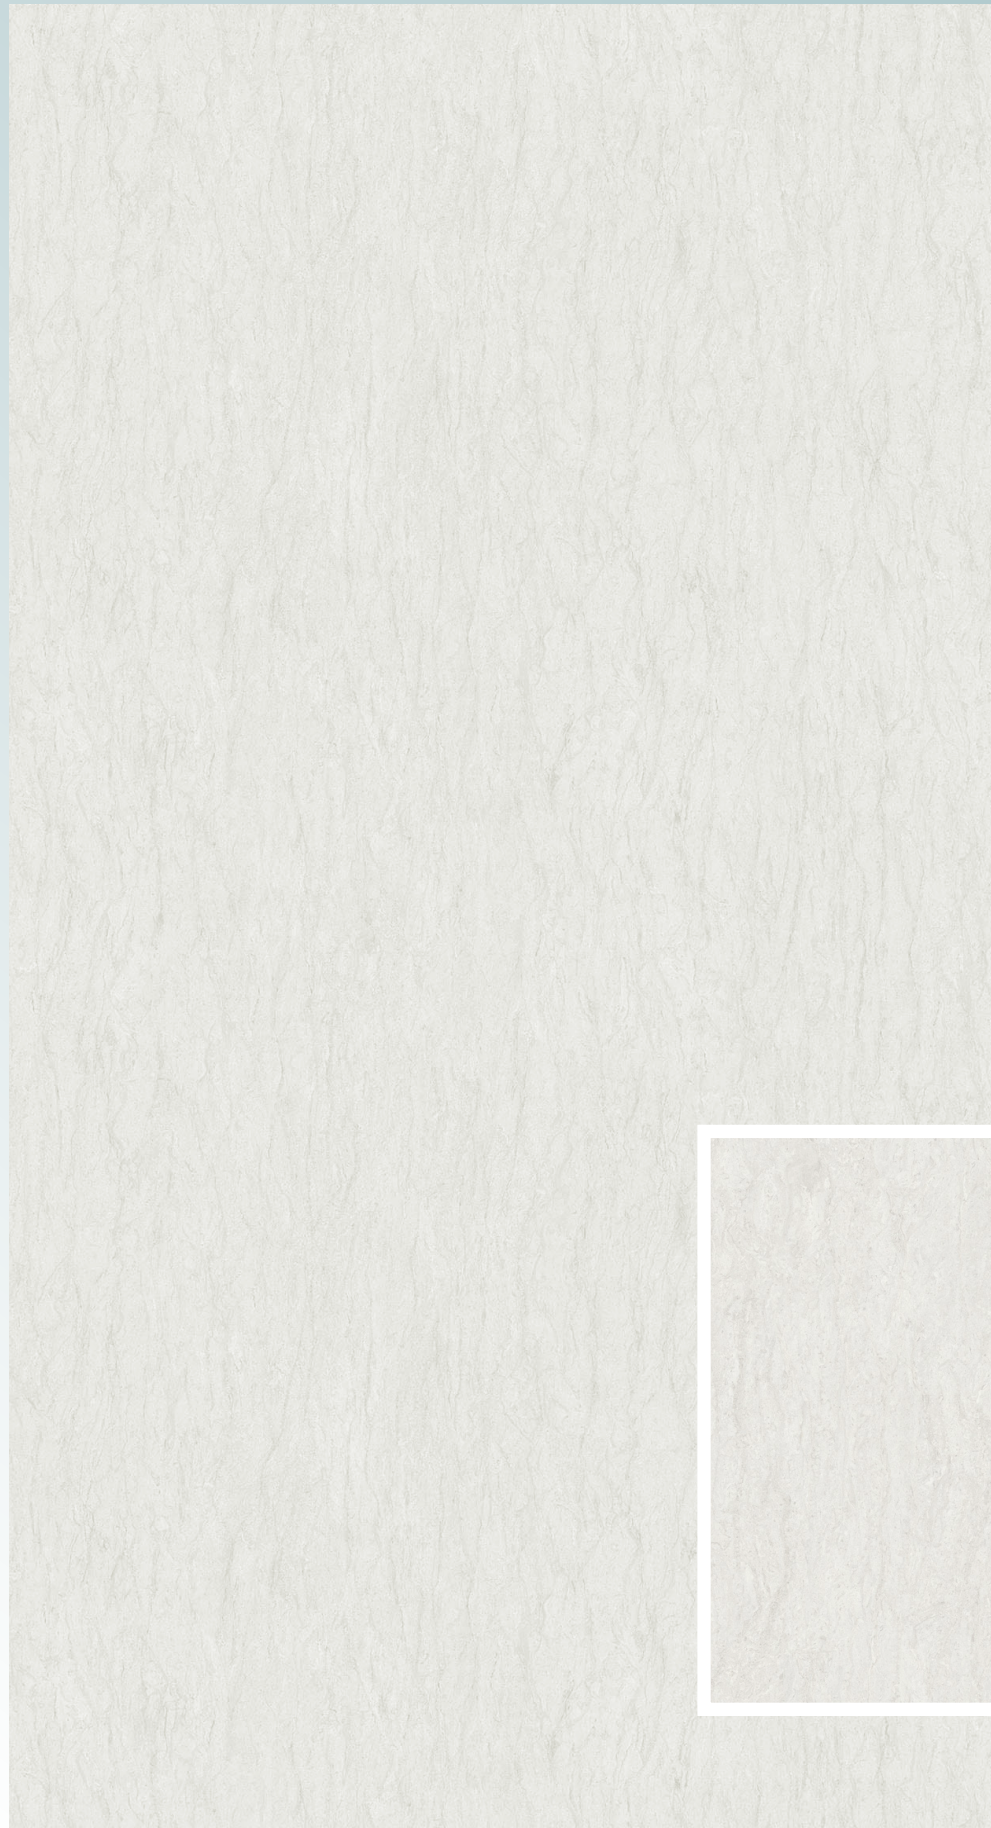

▲ full slab view

TAJ MAHAL TS311

SPANISH LIMESTONE TS306

An off-white limestone look with linear directional features in subtle warm and cool neutrals.

▲ full slab view

SPANISH LIMESTONE TS306

BLACK AMANI TS404

This Black marble design has thin, subtle veins that provide depth and variation throughout the design.

▲ full slab view

BLACK AMANI TS404

RUGGED STEEL TS401

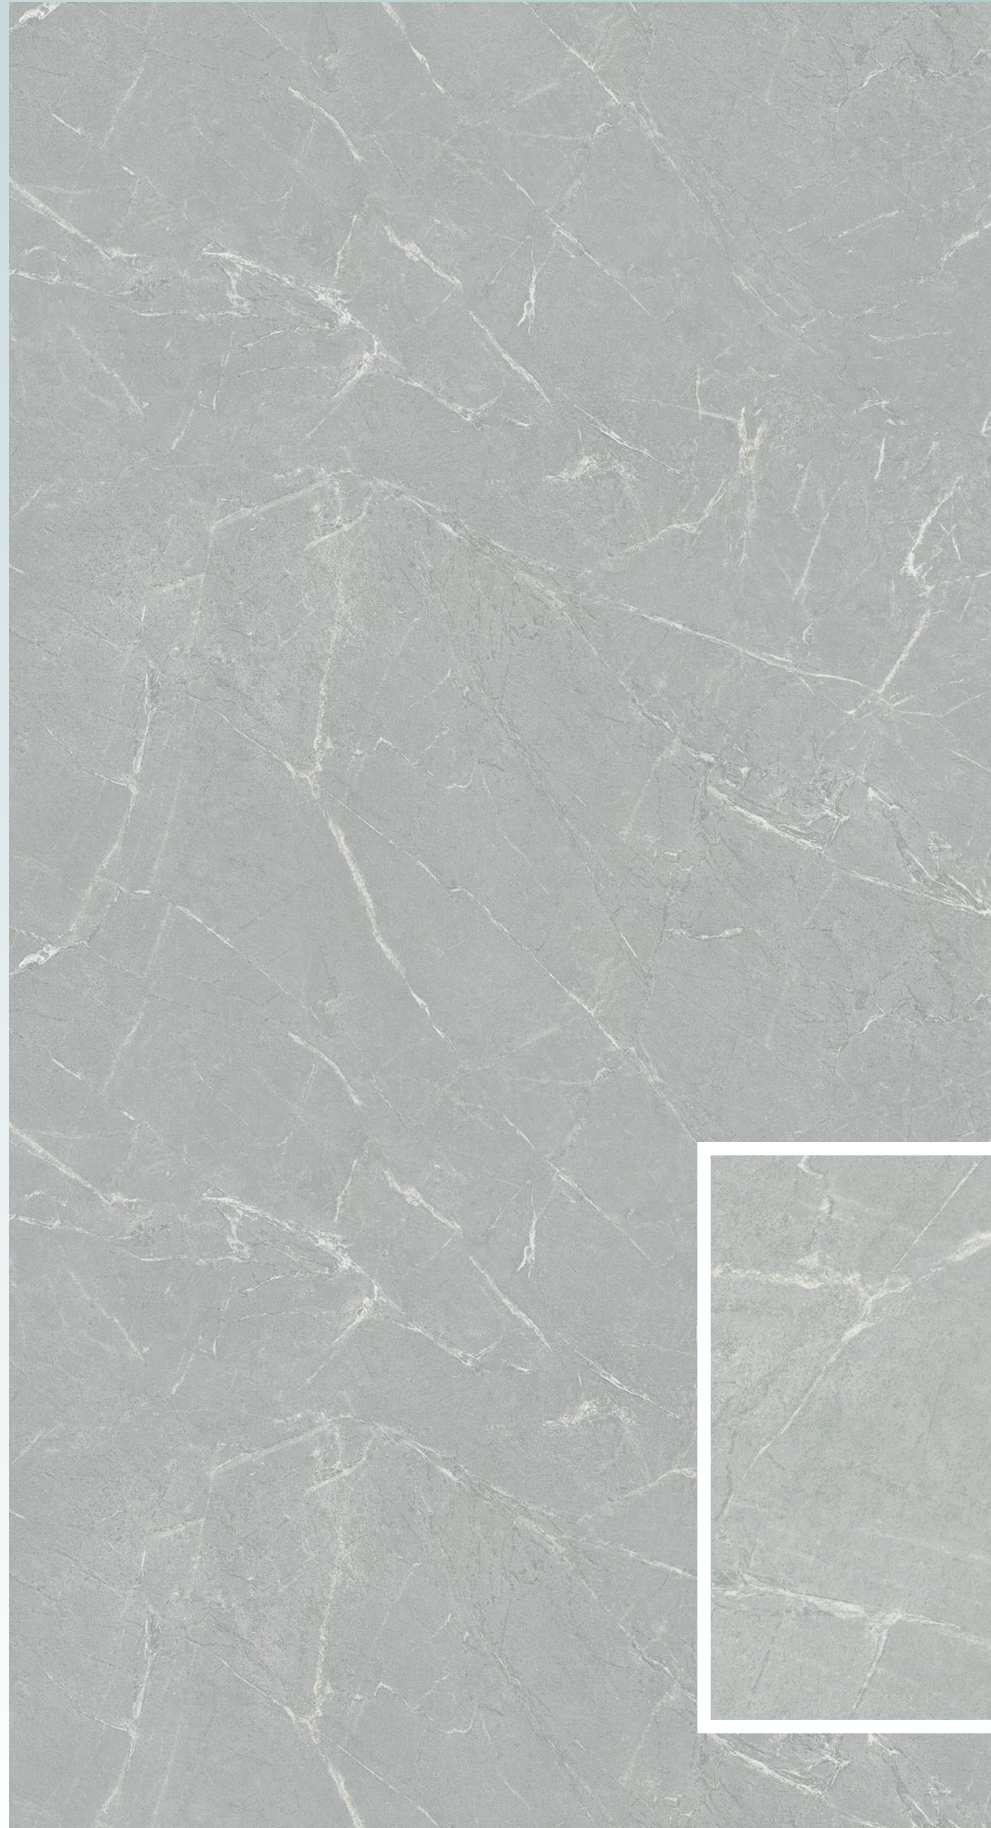

Rugged Steel has the aged and distressed look with all the character and style found in raw metal.

▲ full slab view

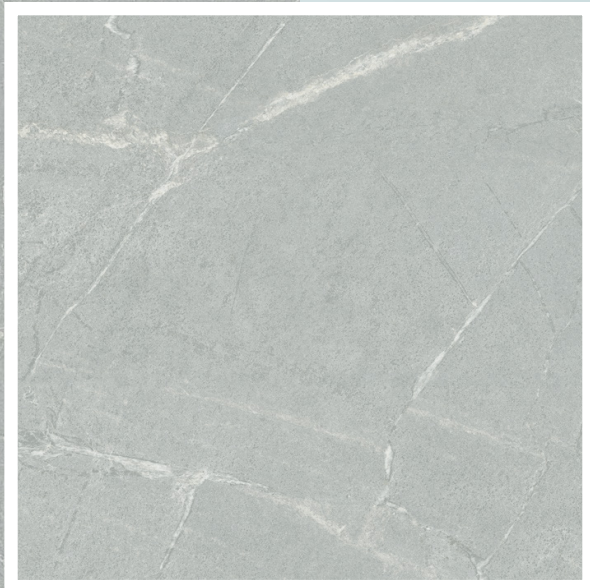

RUGGED STEEL TS401

SOAPSTONE MIST TS307

A large-scale, smooth veined grey soapstone abounding in rich detail and natural features.

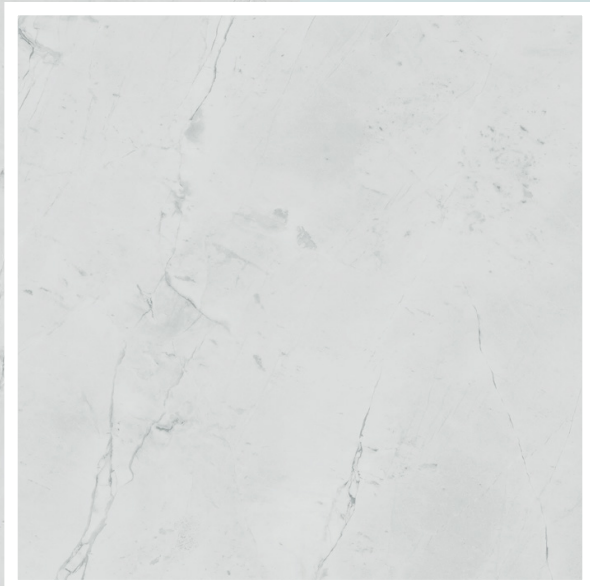

▲ full slab view

SOAPSTONE MIST TS307

STERLING CALCUTTA TS308

A large-scale veined calcutta design with soft grey features.

▲ full slab view

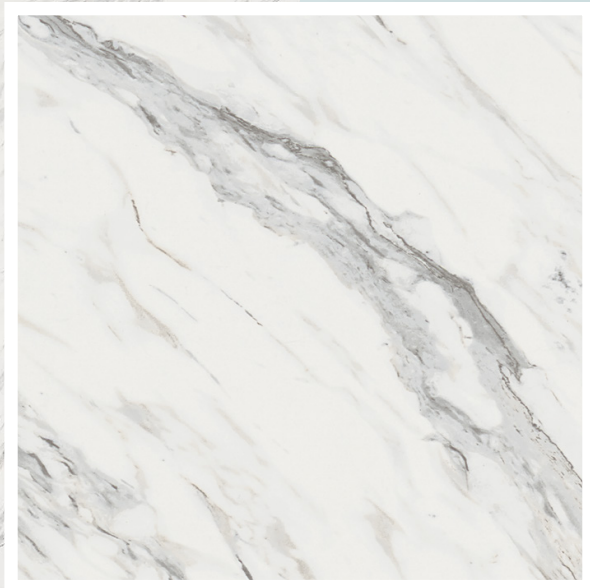

STERLING CALCUTTA TS308

CALCUTTA BLANC TS501

A classic, large-scale Italian marble. The grey and taupe vein structures are large-scale and angular and comprise the signature feature of this marble.
