# CLEAN-AIR SYSTEM

Boost your health and productivity in the workspace

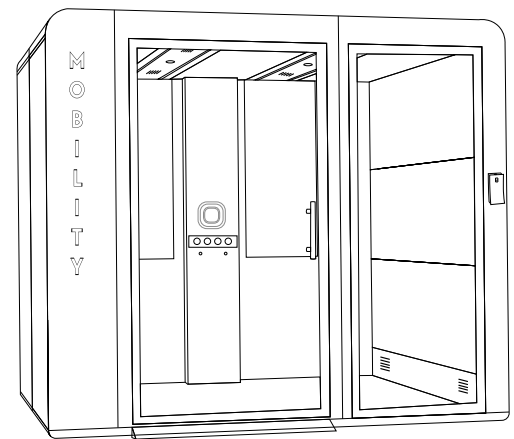

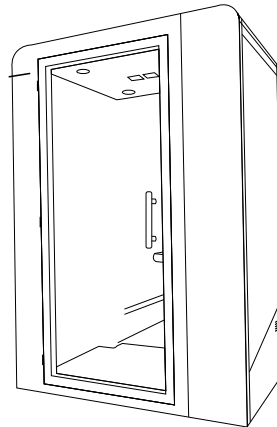

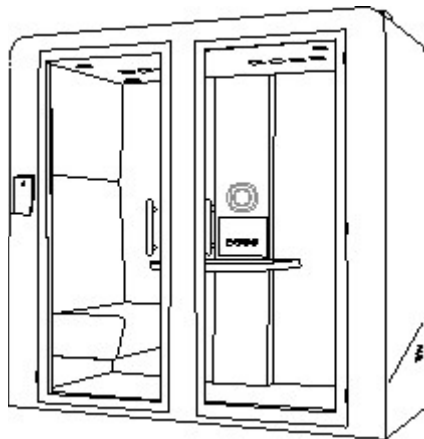

The **FIRST** soundproof personal space that:

Disinfects and Purifies the air you breathe, including Coronavirus.

Easily integrates in open-plan settings - whatever the size.

Safe, healthy and “worry free” environment for your employees.

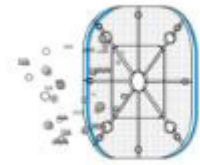

Privacy, comfort and technology to boost productivity.

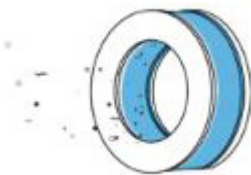

A turnkey solution: highly flexible that can be easily adapted by all open-plan offices whatever the space, size and need.

## AIR AND SURFACE PURIFICATION SYSTEM

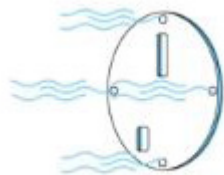

### Pre-Filter

The First Layer targets large particles. Including dust, insects and animal hair.

### Ray-Filter™

Patented Ray Filter consists of 3 unique antibacterial layers that target fine particles (PM 2.5 and 10), germs, odors, bacteria, viruses, fungus and mold spores.

### UVC LEDs

Kill bacteria, viruses and parasites by destroying their integral membrane protein.

### Sterionizer™

Creates pure air by releasing positive and negative ions to freshen up the pod and removes any remaining harmful pollutants.

### DATA MONITORING

Track in real time the quality of the air inside your booth.

Connects to **Google Assistant** and **Alexa**
